The Centre for Creative Photography is South Australia's largest photographic school. It is a private educational institution which believes in a mix of theory, practice and history. All courses are nationally accredited.

Decision Makers

Business finalist

SOUTH Australian Nicole Underwood has been nominated as a finalist in the Telstra Business Women's Awards.

Nicole Underwood

Ms Underwood, the general manager of Entree Recruitment, reached the shortlist of six contenders for the Alcatel Young Business Women's category, which recognises achievements of women under 30.

Entree Recruitment was set up by Ms Underwood about eight months ago as a new division of established firm Hender Consult-

ing. The new division is growing rapidly and is to expand with more consultants needed.

Winners of the Telstra Business Women's Awards will be announced at a luncheon at Adelaide Hilton Hotel on September 20.

Bigger team

THE Clements Recruitment team in Adelaide has been considerably strengthened by the acquisition of the Mack Recruitment operations in Adelaide.

All Mack consulting staff have moved to the Clements offices in the Optus Centre and Mack clients will now be serviced by Clements Recruitment Pty Ltd.

The acquisition of Mack Recruitment is a further step in the growth of the Clements' organisation, which earlier this year became part of the national Work Directions Australia

Group, a leader in the fields of injury management, recruitment and training.

The addition of the Mack consultants to the Clements' team further enhances the company's already strong presence in the areas of executive and IT recruitment, hospitality and office administration.

Image enhancement

THE City of Port Augusta is aiming to enhance its image and reform community vision by setting up a new social vision unit.

This will mean the creation of new positions including a general manager of social development to direct the new unit's action plan.

Eventually, the new unit will consist of six full-time staff, including the positions of personal assistant to the general manager and events co-ordinator/project officer.

Two top jobs

EDGE Recruitment, which primarily focuses on the real estate and property industry, has appointed managers for two large organisations.

"We recruited a new centre manager for City Cross on behalf of the Makris Group and a property manager for Adelaide Airport Ltd," said Gary Beesley, a director of Edge Recruitment.

"Edge Recruitment mainly employs staff for most of the major local independent real estate companies as well as the national franchise companies and commercial groups.

"Our company also finds management staff for shopping centre owners and other national property owners, such as listed property trusts and superannuation funds."

Work at the cutting edge of science and technology

HEAD, TASK FORCE MODERNISATION

\$87,299 - \$97,758 Reference no. 00128810

Located in Adelaide. You will lead and manage Land Operations Division's Task Force Modernisation mission. The goal is to support the Land Force's program of continuous modernisation through provision of a rigorous planning, experimentation and analysis program. In this role you will be required to liaise at a high level with Australian Defence Force (ADF) personnel and stakeholders and represent both DSTO and the ADF in dealings with external organisations.

The position requires:

- A strong background in research in human or physical sciences, or applied mathematics;
- Expertise in military operations research, simulation or wargaming;
- Knowledge of Land Force operations, structures and procedures;
- The ability to define highly complex scientific problems and undertake and lead research across several scientific disciplines;
- Outstanding written and oral skills and the capacity to represent DSTO and Defence in military and international forums.

PATENTS MANAGER

\$70,596 - \$76,230 (including superannuation) Reference no. 00116247

Located in Adelaide. As a key member of DSTO's Technology Transfer and Commercialisation Office you will arrange new patent applications, including assisting with preparation of briefs and drafting of applications, and ensuring appropriate prosecution, protection and maintenance of intellectual property.

Join DSTO. We are an organisation at the forefront of international defence research. You will work with over 2000 people, including Australia's brightest and most innovative scientists, engineers and IT specialists. Enjoy challenging work, excellent career development and travel opportunities, a fantastic super scheme, and family-friendly work conditions in a high-tech, civilian research environment.

The position requires:

- Relevant experience in management and prosecution of patents;
- A sound knowledge of the *Australian Patents Act 1990* and an understanding of Australian and international patent systems, practices and procedures;
- A tertiary qualification and/or experience in a relevant area.

IT SUPPORT OFFICER (4 POSITIONS)

\$41,200 - \$47,845 Reference no. 00104508

Located in Adelaide and Melbourne. You will join a team providing general IT support services to DSTO staff.

The positions require:

- The ability to work independently and as a team member;
- The capability to resolve technical problems;
- Knowledge of, or exposure to several IT systems, including Microsoft Windows operating systems, LINUX and UNIX operating systems, Network concepts such as TCP/IP, LANs and WAN, or Microsoft Office Products.

APPLICATIONS

To obtain an information pack and application details, please refer to our web site at www.dsto.defence.gov.au Alternatively, contact the Recruitment Officer - email: recruitment-sa@defence.gov.au or phone (08) 8259 5074.

Applications close: Thursday, 22 August 2002.

DSTO is a part of the civilian Department of Defence. Australian Public Service conditions apply. Applicants should be Australian citizens or eligible and willing to apply for citizenship. Defence embraces workplace equity and diversity principles.

Exciting Management Opportunity in Product Development

An icon in Australia, Hills Industries is a diverse and successful company, with operations in all States, subsidiary companies in Australia and overseas, over 2000 employees internationally and turnover in excess of \$425 million. The Home and Hardware Products Group - a division of Hills Industries - is a leading supplier of home products in Australia and New Zealand. Some of our products include clotheslines, ironing boards, Bailey ladders, Kelso wheelbarrows, security doors and playtime equipment.

An exciting opportunity has become available for a suitably experienced Product Development Manager to join the Research and Development (R&D) Unit in our Home and Hardware Products Division.

You will be responsible for leading the Home and Hardware Divisions Product Development operations in Edwardstown.

Key responsibilities include:

- Development of an effective R&D Unit, including demonstrated leadership and mentoring for the R&D team
- Managing the introduction of developed products
- Ensure compliance on performance standard on all developed products
- Provision of accurate product specifications
- Provision of satisfactory service levels in terms of timing, volume and quality of work

We are seeking an effective leader with a minimum of 10 years experience in management in a science or engineering field.

A degree in Engineering or Science is essential along with excellent communication skills and the ability to inspire and manage a dynamic team.

Applications addressed to Monika Leniger, Senior Human Resources Consultant, 7 Ackland Street, Edwardstown 5039 by close of business Wednesday 21 August 2002.
